Stabilan i pouzdan

Model: Mazda 6

Mazda 6 je već na prvi pogled solidan porodični automobil koji ispunjava sve uslove koje treba da ima četvorotočkaš namenjen prvenstveno porodici i dužim putovanjima. Možda su stanje Mazde bile dosadne i neatraktivne, ali to za ovaj model ne važi nikako.

Najprodavaniji chevrolet

Model: Cruze

Chevrolet je preuzimanjem Daewooa odlučio stvoriti svoj ogranak koji će se u proizvodnji automobila odrediti na način da se poštuju želje, ukusi i potrebe evropskih i azijskih kupaca. U početku su modeli koje su naslijedili poboljšavani, doradjivani, gdje se stvarno može naći par izvrsnih primjera. No svi su željno čekali originalno razvijene modele pod patronatom novog gazde, čisto radi predviđanja pravca kojim Chevrolet želi da krene. I došli su. Jedan od takvih je i model Cruze koji smo dobili na sedmodnevni test.

Pravi SUV.

Dodaj

Brz, kompaktan i inovativan.

Model: A3
Prvi put se pojavio 1996. godine na salonu automobila u Frankfurtu. Model A3 je označio ulazak nemačkog premium brenda u kategoriju kompaktnih hečbek automobila.

Izmeni

Za prave ljubitelje automobila.

Model: A klasa
A-klasa je najmanji i prvi Mercedesov automobil sa prednjim pogonom. Prve dve generacije su pripadale klasi malih automobila, međutim, s obzirom da su bili nešto viši u odnosu na male automobile, mogli su pripadati i kategoriji minivenova.
